

Autumn term in Yellow Class

English

We will start by looking at a version of Beowulf and creating their own sequel of the story.

We will then use our learning from the text to learn about key features of diary entry and write a diary from the point of view of another character. We will cover poetry unit by looking at kennings and metaphorical language. We will then look at a new text called The cloud spinner by Michael Catchpool and create an innovated version of the tale using features from the environment and then write instructions on how to weave the clouds to cloth.

We are reading...

Maths

Year 3 and 4- children will be covering place value, addition and subtraction, multiplication and division and area (year 4).

Science

Food and the digestive system

This project teaches children about the human digestive system. They explore the main parts, starting with the mouth and teeth, identifying teeth types and their functions. They link this learning to animals' diets and construct food chains to show the flow of energy.

Sound

This project teaches children about sound, how sound is made and how sound travels as vibrations through a medium to the ear. They learn about pitch and volume and find out how both can be changed.

Art

Weaving

This project teaches children about the artform of weaving and how it has developed over time, including the materials and techniques required to create woven patterns and products.

Contrast and complement

This project teaches children about colour theory by studying the colour wheel and colour mixing. It includes an exploration of tertiary colours, warm and cool colours, complementary colours and analogous colours, and how artists use colour in their artwork.

History

The children will learn about life in Britain after the Roman withdrawal. Children will learn about Anglo-Saxon and Viking invasions up to the Norman conquest

DT

Fresh food and good food

This project teaches the children about food decay and preservation. They discover key inventions in food preservation and packaging, then make examples. The children prepare, package and evaluate a healthy snack.

Geography

This essential skills and knowledge project teaches the children about compass points and four and six-figure grid references. The children will learn about the tropics and the countries, climates and culture of North and South America.

PSHE

This term we will be focusing on the themes, me and my relationships and rights and responsibilities. We will be exploring these themes through discussion and practical activities.

French

The children will learn about animals, habitats and food chains in French.

RE

We are going to be answering the questions, What does it mean if God is holy and loving and was Jesus the Messiah? The children will be answering these questions through discussion and activities.
